***Here, I share with you the greatest opportunity you have been searching for!***

Dear Nigeria Youths,

30th June, 2024

If you are interested in Earning.....legitimate passive income online Monthly, this is the most important message for you.....

**The Story in full**

Once upon a time, it was all about a boy called **TOLU** who was born into an extended family of fifteen children where Tolu was the first child of his father.

One faithful day, Mr. Ade, who happens to be Tolu's father, was inside a very harsh sunny hour trying to clear his farm land with a cutlass on his hand when the greatest news of his life reach him by his sister Aunty Biodun.

Brother! Brother!! Brother!!! Shouted his sister from a far, what are you doing inside that harsh sunny hour of the day when you are supposed to be by the side of your wife who has been struggling to deliver her first child? Oh sister! You are here, I'm not here to work but just come to set fire on the grass I gathered yesterday before making any ridges. Okay! Please stop whatever you are doing and follow me to the house, your wife is about to deliver. Are you serious? Asked

Mr. Ade in a furious look on his face. Yes my brother! Have I lied to you before when it comes to issues like this? Please let's hurry up so as to reach home on time.

On getting home, Mr. Ade, who was very furious to know whether the child is a boy or girl, quickly rushed inside the house to receive the great news. Congratulations Mr. Ade, you are indeed a great man and you have shown us that you are very strong in bed. Said one of his neighbors in the compound. Wow! I'm speechless and I don't know where to start thanking God Almighty for blessing me with a child.

### **It was Time for Tolu to begin Schooling!**

It was time for Tolu to start going to school at the age of two since he can now walk and talk even though he was not fluent in his speech. Mr. Ade who was a very poor man began to think of whether to enroll Tolu in either a private or public school. After this has given him sleepless nights, he related the issue with his friend Mr. Bolu who has a Fish Pond Farm beside the river of the village about where to get legitimate money to sponsor his child to school. As you can see, I'm a retired civil servant who the government has used and dumb without even paying what is dueing right to me as serving the nation for 35 years.what a wicked world we found ourselves in. After listening to Mr. Ade for a long time, Mr. Bolu understood how sad his friend would feel if he could not get this money to enroll Tolu to school. Mr. Ade, you know you are my good friend and I can't turn down your request no matter how hard. You know what, I'm going to give you some money to enroll Tolu in school on one condition that you are going to learn how to practice fish pond farming from our agents. Mr. Ade, who is left with no option, grabbed the offer his friend gave him. Mr. Ade was able to learn the fish pond farming and made a lot of money from it to sponsor Tolu to school.

### **The Dream of an Exciting Moment has Finally Arrived!**

After becoming a graduate, Tolu was eager to go for National Youths Service Corps (NYSC)

Remember that Tolu has fourteen younger ones who were all in both primary and secondary schools. Tolu was not comfortable with the way the younger ones were seriously requesting from him financially. I'm only earning thirty three thousand naira monthly but the request I received from my younger ones tripled what I'm earning monthly. I don't have any other means of earning legitimate income to meet up with my expenses. One day, Tolu received a call from home that his Father was very ill and it was a festival period that he must not return home without buying his younger ones something for the festival. In fact, Tolu was confused and didn't know what to do next. The pressure of '**What I have is not Enough**' began to trend in Tolu's mind daily. This was how Tolu painfully lost his beloved father because he could not afford to pay for his hospital bills.

After the death of Mr. Ade, the responsibility of the family was on Tolu who just concluded his NYSC without any savings or investment.

Tolu merely died of high BP because of the responsibility of the family on him. After years of hardship and frustration, Tolu was hopeless and did not know where to start from. One fateful morning, Tolu was just trying to know what was happening around him with his phone and suddenly he comes across a mobile data platform on Google play store called:

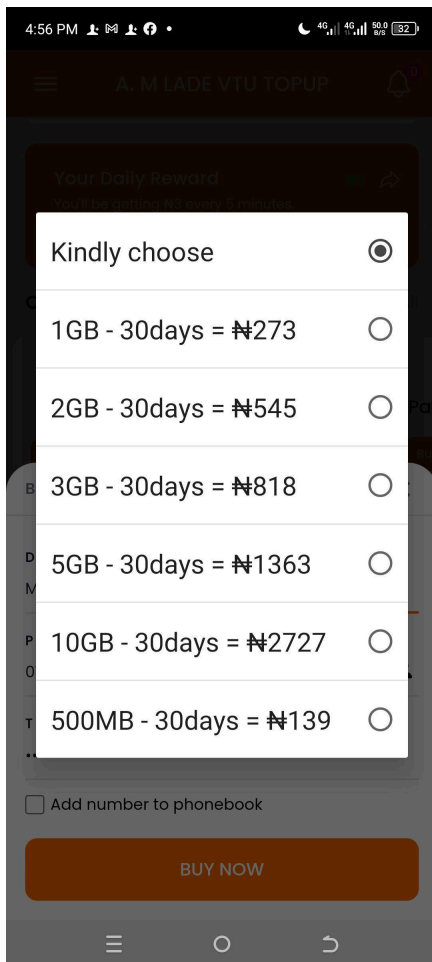

### **A. M. LADE VTU TOP UP MOBILE APP**

Tolu, who was eager to start up a legitimate online business, did serious research about how this data app works.

### **The hidden secret that earn me my first #309, 600 from mobile data app!**

After a deep research on A. M. LADE VTU MOBILE DATA APP, Tolu decided to start up a small business that will be earning him legitimate income daily.

With just #20, 000, Tolu strategic plan was earning him #309, 600 monthly. Is this not juju? Thus, Tolu revealed how he was able to earn #309, 600 monthly below:

I make sure I sold #20, 000 worth of mobile data daily which earn me:

$\#20,000/230 = 86.95\text{GB}$

I sell 1GB MTN DATA for #350 while the platform deduct #230 since I'm a Reseller Agent on the platform. This is really profitable and seamlessly free. Tolu explained!

### **Can we continue?**

Yes! Okay good, what I earn as profit for selling 1GB mobile data is #120 said Tolu. Thus, let us do the math:

Don't forgot Tolu was able to sold 86.96GB from his #20, 000. Now, let us multiply( $\times$ ) #120  $\times$  86.95 = #10,320, this was what Tolu was earning daily. Therefore, I was able to repeat this process for 30 days which yields #10, 320  $\times$  30 days = #309,600 in my bank account monthly legitimately without stress.

**THE HIDDEN SECRET ON HOW I STRATEGICALLY MADE MY FIRST #10,320 SELLING MOBILE DATA IS REVEALED BELOW:**

What Tolu did was to start selling data with a promo offer of sacrificing #10, 000 for the mobile data business.

Later that day, the #10, 000 worth of 43.4GB was used as an offer for Tolu to gain customers who will at the end of the day purchase mobile data from him.

It was very easier for Tolu to have 86 customers within a day just with #10, 000 promotion offer he strategically introduced into his business. From that day, those he shared this offer with became his regular customers.
